**The Judicial Liquidation Procedure** of the companies **Werther International s.p.a.** and **Sicam s.r.l.** announces with great satisfaction that, after almost a year of activity conducted in provisional exercise, during which the support of the partners and the market has never failed, finally on May 7th the two company compendiums "Werther" and "Sicam" were awarded to **Davers s.r.l.**, of which **Mr. Marco Gibertoni** is the director and partner.

This is the first step in a further path that the Receivership and the Awardee will conduct together, destined to conclude, hopefully within a few weeks, with the transfer of ownership, which will finally return the companies and workers to a condition of normality and serenity.

The Receivership feels the need to thank all those whose work, in these months, has allowed this fundamental objective to be achieved: in particular employees, collaborators, suppliers, customers and Justice Bodies.

Werther and Sicam will still participate in the important trade fair "**Autopromotec**", which will be held in **Bologna from 21 to 24 May**.
